Please feel free to provide any comments about RVS

- Disappointed to see the removal of the beautiful 100-150 year old sycamore tree at the gazebo.
 - Why did the large shade tree close to the gazebo have to be taken down?
 - Guys do a great job maintaining ground
 - The area around the gazebo is too bare. Trees would suffice.
 - Great airport but student traffic can be annoying at times.
 - The control tower folks have always been great!
 - Great place for General Aviation with fantastic facilities and a variety of airplanes. Very few other airports have a great place like RVS.
 - Austin is doing a good job at RVS.
 - Well run
 - We miss the shade tree at the gazebo.
 - Best managed airport I have ever based.
 - Please put tree back up around pavilion.
 - Pretty smoothly run
